DC Water and Sewer Authority Selected Infrastructure Management Group Inc., for Strategic Planning Consulting Services

Washington, DC, September 28, 2005—The DC Water and Sewer Authority (DC WASA) has awarded a contract to Infrastructure Management Group, Inc. (IMG Team) to update and strengthen DC WASA's Strategic Plan for 2005. "Being selected for this project demonstrates the enormous faith the DC WASA selection committee has in the people we've brought together to form the IMG Team", says Steve Steckler, President of IMG.

The IMG Team will begin its effort with reviewing past strategic planning work and conducting interviews with the Chairman, Principal and Alternate Board Members, the General Manager, and senior staff. The interviews will provide information regarding the successes and lessons learned from the current strategic plan, while identifying potential directives and initiatives for the updated plan. In the next phase of the project approach, the IMG Team will facilitate an off-site workshop for discussion of DC WASA's strategic direction. The output of the workshop will serve as a basis for the update of the strategic plan. The IMG Team will consolidate the information and present its findings to the DC WASA leadership.

The final updated Strategic Plan for 2005, resulting from the work of the dedicated DC WASA staff along with the IMG Team, will provide strategic direction for DC WASA in developing their policies, performance goals, budgets, and work plans.
